## Bio Sculpture Gel Nails

Bio Sculpture Gel provides a protective shield, allowing your own nails to grow. The gel comes in a wide variety of colours, including French and clear, instead of regular varnish, non-acrylic soluble gels are used - and they dry in seconds to leave hard but flexible protective layers. This very special gel looks as thin and natural as your own nails, only better!

### Removing your Gel Nails

The genius of the gel is that it only comes off with a special solvent, so you can paint any varnish over it and wipe it off, with acetone free polish remover, without affecting your Bio Sculpture Gel nails underneath. However, when you are ready to have your nails removed we recommend you combine it with one of our manicures.
